

A Partial List of Musicians who have Interpreted Music for the Metrostyle Pianola

WITH THE Metrostyle Pianola, even those wholly without musical training can execute the most difficult compositions and reproduce in every detail the interpretations of these prominent musicians and composers.

Playing a Metrostyle-roll with the interpretation indicated by Paderewski or Bauer practically amounts to taking a lesson from these eminent pianists. The owner of the Metrostyle has therefore the advantage of a tutelage in music such as no conservatory can possibly offer.

The guide afforded by the Metrostyle is *not* arbitrary, but allows perfect freedom for individual expression, and the instrument is available for the lighter class of music as well as for more serious compositions.

The Metrostyle Pianola, in furnishing not merely the technique of piano-playing, but also a *guide in artistic interpretation*, has won the unqualified endorsement of the most conservative musical authorities, and opened up a world of pleasure to music-lovers everywhere.

Any invention which represents a new thought is without comparison. The Metrostyle Pianola is so classed and is of sufficient importance to every one interested in music to warrant a personal investigation.

The Metrostyle Pianola can be seen and played at our exposition-rooms, or at the warehouses of our agents.

A handsomely illustrated booklet on the Metrostyle Pianola (Catalog X) will be sent to those desiring information by mail, and all questions answered by our correspondence department.

Pianola, \$250. Pianola with Metrostyle, \$300. Purchasable by monthly payments if desired.
