

Marguerite Volavy

The world's greatest authority on music rolls, heads the staff of artists who create rolls for the

SOLOELLE

The Tone-Coloring Solo Player Piano

"For more than a year my assistants and myself have devoted the most painstaking effort to the preparation of the Soloelle Library of music rolls.

"As the work has progressed we all have felt more and more deeply the inspiration of the Soloelle itself—and we have brought to our work a flood of loving enthusiasm and unwavering loyalty to our ideals that of necessity has heightened our success.

"The result of our labors has far exceeded our most ambitious anticipations, and we all sincerely hope and trust that music lovers everywhere will approve of the Library as really worthy of that epoch-making invention—the Soloelle—which permits the free expression of individual musical personality without technical study."
